A LOOK BACK AT... RANDOLPH COUNTY

From 2016 to 2019, MCC had a heavy presence in Randolph County. MC382 involved erecting a triple barrel culvert over Sandy Creek in Liberty, NC. MC383 was in Asheboro, NC where an old bridge was replaced with a triple barrel culvert over Mill Creek. Last but not least, MC360 was part of the Asheboro Bypass design-build project where we partnered with Wright Brothers to build the culverts. MCC ended up making a deal to build all but a couple of the culverts alongside of the remnants of the previous sub. This was also the job where Gabriel Soto proved his leadership skills and was promoted for foreman.
